

01 / FENCE MATERIAL WORKSHEET

Gather the details. Build your material list.

Type into the fields or print this worksheet. Estimates are welcome; mark anything that still needs confirmation.

Project & location

Project name, intended use, city/state and delivery ZIP.

Fence preferences

Material or style, desired height, finish/color and privacy needs. Write undecided if needed.

Fence runs & site conditions

Label runs A, B, C, etc. Record each length and unit; note corners, slopes, obstacles and existing fence.

Gate openings & access

Number of gates, approximate clear opening widths, pedestrian/vehicle use and any swing or sliding preference.

Supporting components to discuss

Note posts, rails, fittings, fasteners, hinges or latches to review. Required parts depend on the selected system.

Planning aid only: this is not a final takeoff, installation design, quote or confirmation of availability. Have measurements, component compatibility and applicable site requirements checked before ordering.

02 / FENCE MATERIAL WORKSHEET**Prepare your pricing inquiry.**

Keep this worksheet with your drawings or material list. Use extra sheets for long answers so nothing is hidden when printed.

Quantities & level of certainty

Record quantities with units. Label each as estimated, measured or supplied by an installer; list missing details.

Delivery access & receiving

Site type, access restrictions, receiving hours and unloading equipment or arrangements still to confirm.

Timing & project stages

Preferred delivery window, any fixed deadline and whether materials are needed in stages. Dates are requests, not guarantees.

Drawings & questions

List available sketches, takeoffs or specifications. Note questions about options, quantities or compatibility.

Ready to discuss your material list?

Use your notes to complete the pricing inquiry. If you have drawings or this completed worksheet to share, ask the team how to provide them. Product availability, specifications, freight and timing require confirmation for your request.
